

## Brookside Primary School School Sports

The Government is providing funding to improve provision of physical education (PE) and sport in primary schools. This funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to primary schools to spend on improving the quality of sport and PE for all their children.

At Brookside we strive for all pupils leaving school to be physically literate and with the knowledge, skills and motivation necessary to equip them for a healthy, active lifestyle and lifelong participation in physical activity and sport.
